

HW机考在线练习和考试指南

一、在线练习

考试前一定要在线训练，<https://www.nowcoder.com/test/1088888/summary>（华为机考模拟题）

1、点击“开始做题”，进入考试界面

2、开始考试，系统会默认开始计时，考试时间150分钟

3、编程解题之前先选择好自己熟悉的语言

The screenshot shows the '华为研发工程师编程题' (Huawei R&D Engineer Programming Problem) page. On the left, the problem description for '汽水瓶' (Soda Bottle) is visible, including constraints and a hint. On the right, the code editor is open, and the language selection dropdown menu is expanded, showing options like C++(clang++11), Java(javac 1.8), C(clang11), Python2(2.7.3), Python3(3.9), pypy2(pypy2.7.13), pypy3(pypy3.6.1), and C#(mcs 5.4). The '提交运行' (Submit and Run) button is highlighted.

4、在牛客网指定区域调试运行代码，点击“提交运行”，可查看用例通过率；

The screenshot shows the same problem page as before, but the language selection dropdown is closed. The code editor area is visible, and the '提交运行' (Submit and Run) button is highlighted. The text '代码编辑调试运行区域' (Code editing, debugging, and running area) is displayed in the editor.

5、当前题目完成后，点击“下一题”，切记不可点击“提前交卷”，页面下方有“答题卡”提示，可以随意切换题号，题目没有答题先后顺序

The screenshot shows the bottom of the problem page. The '下一题' (Next Question) button is highlighted. Below the editor, there is a section for '收起答题卡' (Collapse Answer Card), which shows a list of question numbers (1, 2, 3) with '1' selected. The text '编程题3道' (3 Programming Questions) is visible next to the question numbers.

6、最后一题完成之后，点击“交卷”，完成考试
